GTF Subset : Los Angeles Convention Center, Los Angeles, CA, USA

INDIA & US

Top major contributors to the textiles and clothing trade across the world.

US and India are the top major contributors to the textile and clothing trade across the world. For apparel, the US is one of the top importing countries across the world and India is among the top five exporting countries.

US

Top importing country in the world

INDIA

Among the top five exporting countries

US accounted for 35 percent of India's textile exports in the year 2020. Apparel and home textiles together accounted for more than 90 percent of the total textile and clothing exports with share of 52.7 and 40.8 percent respectively.

It will be the focus Indian market show in USA where buyers will come with the mindset of buying from Indian industry.
